Professional Summary

Highly accomplished Senior Technical Lead and Full Stack Developer with over 8 years of experience architecting and developing high-performance Q-commerce and e-commerce platforms, web, and mobile applications. Expertise spans full-stack development, microservices, and inventory optimization, consistently driving operational efficiency and customer satisfaction. Proficient in Node.js, React.js, PHP, MongoDB, PostgreSQL, and MySQL, demonstrating strong leadership in team management and collaboration to deliver robust technical solutions aligned with business objectives.

Technical Expertise

- **Frontend:** React.js, Next.js, React Native, Vue.js, AngularJS, Tailwind CSS, HTML5, CSS3, Responsive Design
- **Backend:** Node.js (Express), Laravel, PHP, Python, RESTful APIs, GraphQL, Kafka, RabbitMQ
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis, Firebase, DynamoDB, Prisma, Database Optimization
- **Cloud & DevOps:** AWS (EC2, S3, Lambda), Google Cloud, Docker, Kubernetes, Terraform, CI/CD (GitHub Actions, Jenkins)
- **Domain & Tools:** Q-Commerce Architecture, Inventory Management, Last-Mile Delivery, Payment Integration (Stripe, PayPal), Google Maps API, Microservices, Agile/Scrum, Git, Unit Testing (Jest)
- **AI & BI:** TensorFlow, Keras, PyTorch, Scikit-Learn, Tableau, Power BI, Algolia, Elasticsearch

Professional Experience

1. Technical Team Lead | BaladiExpress, Doha, Qatar *January 2023 – Present*

- Led technical strategy for quick-commerce platform (50K+ MAUs), overseeing 8 engineers in scalable delivery/inventory system development.
- Developed 21-day supply forecast model and real-time IMS with barcode integration.
- Reduced out-of-stock (OOS) rates from 12% to 1%, boosting fulfillment speed by 35%.
- Architected microservices platform (99.95% uptime) and optimized APIs with Redis (40% response time reduction).
- Implemented robust CI/CD pipelines, cutting deployment times to 15 minutes.
- Improved system performance, reduced downtime by 15%, and led cross-functional updates.

2. **Team Lead** | Mytrackee, Ireland *December 2019 – December 2022*

- Managed development of admin, customer, and mobile apps (AngularJS, ReactJS, React Native).
- Coordinated cross-department teams for timely feature delivery.
- Led cloud technology implementation for app scaling and performance.
- Built fleet management system for 5K+ vehicles; optimized geofencing, reducing server load by 30%.
- Integrated Google Maps API, improving dispatch efficiency by 45%.
- Spearheaded ReactJS migration for web apps, significantly improving user engagement.

3. **Full Stack Developer** | Fast Solution Lab, London, UK (Remote) *November 2018 – November 2019*

- Developed 15+ full-stack web apps (PHP, CodeIgniter, React.js, SQL).
- Integrated payment systems handling over \$2M annually and created a reusable component library, cutting development time by 30%.
- Implemented database management, API integration, and testing protocols.
- Enhanced system security, reducing vulnerabilities by 30%, and optimized database queries, improving performance by 25%.

4. **Mobile App Developer** | TaxiTime, New Zealand (Remote) *February 2018 – February 2020*

- Developed ride-hailing app (10K+ users) with sub-500ms real-time tracking.
- Reduced app crash rates by 65% through robust error handling and effective bug fixing.
- Led the successful launch of the mobile app, achieving over 10,000 downloads within the first three months.

Education

Bachelor of Science in Software Engineering COMSATS University Abbottabad, Pakistan 2012 – 2016 | *Relevant Coursework: Data Structures, Algorithms, Web Development, Cloud Computing, Software Design*

Languages

- **English:** Full Professional Proficiency
- **Urdu:** Native or Bilingual Proficiency
- **Hindi:** Full Professional Proficiency

Volunteer Work

Software Developer | Qatar Charity, Doha, Qatar *January 2019 – Present*

- Developed and maintained a donation management platform to facilitate online donations for charitable causes.
- Provided end-user support, system upgrades, and API integrations.
- Managed technical documentation, business process analysis, and database design.
